**Read with understanding: (Read the text and answer the questions)**

#### SHIPS

In the 1830's people started to make ships from iron and steel. Before that ships were made from wood.

Ships took passengers to different parts of the world. Some ships carried soldiers to fight wars. Most ships carried things that people wanted to trade. The load that a ship carries is called its cargo.

Ships going from the West (Europe) to the East (Asia) carried things like salt, clothes, beads, glass and metal goods. Ships going from the East to the West carried cargoes of silk, spices, tea, precious stones and porcelain. Some cups and plates are made from porcelain. It is very delicate.
